

ESTEBAN BENABARRE

FULLSTACK DEVELOPER

Fullstack Developer, currently studying to become a Software engineer.

Expert in capital markets with an extensive knowledge in customer service. I consider important to continuously grow and develop my skills exploring outside my comfort zone. I love teamwork and to contribute with my knowledge when I see someone needs it.

My main goal is to grow in the field of software development through continuous studying, practice and participation in blockchain and smart contract related projects, taking advantage of my experience acquired in other areas.
